To Whom It May Concern:

The State of Connecticut Judicial Branch was involved with Watts Associates for our Courthouse project in Torrington CT, an 180,000 SF courthouse.

Watts Associates was involved in the selection and procurement process for the Haworth Workstations and private office furnishings. It has been our experience that Watts Associates added great value to the furnishing phase of the project. Watts Associates service consistently went above and beyond what we typically experience with other companies.

I have been a Facilities Designer for the Connecticut Courts for over 23 years and have overseen the construction & specifying of furnishings of over 15 major courthouse projects. I can honestly assert that Watts Associates is one of the most dependable and service oriented companies with which I have had the pleasure of working with on several projects. Please be informed that I highly recommend Watts Associates for any project that you may be considering.

A handwritten signature in black ink, appearing to read "Deborah Levesque", with a long horizontal flourish extending to the right.
